RE: Bus stop change-Brookfield Square construction

As most are aware, the south end of Brookfield Square is undergoing extensive construction. For the past couple of weeks multiple organizations (the City of Brookfield development, City of Waukesha Metro transit, Waukesha County and Brookfield Square) have been working to identify a convenient alternate stop for route #901 riders with the impending closure of Brookfield Square Road.

Beginning, Tuesday, June 26th, route #901 will now stop on the west side of Brookfield Square (just west of the food court) slightly west of Main Street. This stop is just south of the Firestone Auto Center and has a posted sign. Waukesha Metro and MCTS also stop at this location. With this move to the west side of mall (there are no alternatives on the east side of the mall), route #901 will now travel on Bluemound Road between the Barker Road Park and Ride and Brookfield Square. For some riders, the Barker Road Park and Ride may be an alternate stop.

Please note that this is a temporary move for the next 3 to 5 months (depending on the completion of construction) while a more long term solution continues to be researched.

We are sorry for any inconvenience this may cause.
